

Software Courses Designed and Taught

Between 1989 and 1996, I taught academic courses at Simon Fraser University, Kwantlen College, and Fraser Valley College. More recently, I have also taught and/or delivered the following courses:

Course	Client	Comments
Technology by Community: An Introduction to Linux Community and Culture	Channel Software Operations, Intel	Developed two day course with seven modules for internal training.
Classroom Applications of OpenOffice.org	Learning Instructional Design Development Center, Simon Fraser University, and Telestrainglobal	Designed for both face to face and on-line delivery.
Enhancing Your Classroom Instruction with Impress/PowerPoint	Learning Instructional Design Development Center, Simon Fraser University, and Telestrainglobal	Designed for both face to face and on-line delivery.
Designing an E-Portfolio with Open Source Software	Learning Instructional Design Development Center, Simon Fraser University, and Telestrainglobal	Designed for both face to face and on-line delivery.
Success With People	INFOSERV Institute, Jamaica	Working with a five person team to design 10 modules about the DISC Personality Profile. Project included live video sequences.
A Beginner's Guide to WebCT	Southside School, Surrey, BC	Delivered at Southside School, Surrey on a Profesional Development Day.
